

Empathy Map Canvas

Date	2 October 2026
Team ID	SWTID-2026-6582
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	4 Marks

Empathize & Discover

Primary user: a budget-conscious person planning a home interior, party/event, or jewelry purchase who wants relevant options without manually searching and recalculating across many platforms.

Empathy Area	PocketSmart AI User Insight
SAYS	"I have a fixed budget." "I want options that match my preferences." "I do not want to check many websites manually."
THINKS	"Will the final total exceed my budget?" "Are these recommendations suitable for my situation?" "Can one system understand both style and cost?"
DOES	Searches multiple platforms; compares prices; calculates totals; changes quantities/services; asks friends for suggestions.
FEELS	Overwhelmed by choices; worried about overspending; uncertain about matching style; frustrated by repeated manual comparison.
PAINS	Fragmented platforms; manual budget allocation; generic search results; repeated arithmetic; no unified home/party/jewelry assistant.
GAINS	Personalized AI recommendations; clear estimated budget breakdown; outfit-aware jewelry suggestions; saved history; direct search links.
